Dear Sir / Madam,

**RE: THANKING GIAKONDA SOLAR SCHOOLS FOR ICT EQUIPMENT DONATED TO
THE SCHOOL**

Reference is made to the above subject matter.

Following the operationalisation of ICT as a subject in schools by government, the school has faced a lot of challenges in teaching the subject ranging from lack of specialised teachers and more especially equipment.

The donations made by your organisation have tremendously added value and the ongoing trainings are a masterpiece to this school. We have received routers, laptops, RACHELS and Pis that have lightened our work and has imparted a lot of skills in our pupils.

Your magnanimity to provide us with solar panels and batteries as a source of power has reinforced government efforts in educating a Zambian child in ICT.

The following have been advantages that we have and continue to derive from the set of equipment:

1. able to power laptops, router, Pis, phones,
2. help teachers to teach competently ICT in the school,
3. helped the school to increase enrolment by 10 percent,
4. helped to develop learner skills in ICT,
5. helped in engagement, attention and retention of learned materials by pupils,

6. preparing them for a society dominated by ICT development,
7. helped the school in curriculum integration,
8. has increased motivation among pupils ,
9. helped in the promotion of higher order thinking skills because they are visual audio teaching and learning AIDs.

I can itemise as many as possible but you can see how partnering with us has tremendously helped the school and the pupils.

My plea is that you now help us with more of PI-400s because they are power efficient and portable.

We treasure your support and look forward to its continuation as we move forward.

Yours faithfully,

MANGWENDE DANIEL

HEADTEACHER
